

AIR & GAS DRYER

- ✓ High-performance air and gas dryer designed for efficient moisture removal from compressed air and natural gas systems.
- ✓ Ensures dry gas supply and stable operation under various conditions.
- ✓ Each system is engineered according to gas composition, pressure, and temperature requirements.

* Customized specifications beyond this catalog are available upon request.

Description	Specifications
Capacity	100~6,000 Nm ³ /hr
Inlet Pressure	0.1~20.0 barG.
Fluid	Compressed Air or Natural Gas
Operating	Manual or Auto
Adsorption Material	Multi-layer desiccant
Regeneration Cycle	4Hour/1Tower
Main Voltage	AC380V x 3P x 50/60Hz
Control Voltage	AC220V x 1P x 50/60Hz
Pre Filter	1set
After Filter	1set
Regeneration Heat Exchanger	1set
Separator	1set
